Attached you will find the complete list of counties which received online voter applications during the first day of submission.

870 registrations filed in first 24 hours at NEReg2Vote

LINCOLN – Secretary of State John Gale says he is very pleased with the public response to NEReg2Vote. In the first 24 hours, 870 registrations were submitted to Nebraska’s new online voter registration system.

By way of comparison, Massachusetts reported receiving 1,000 applications in the first 24 hours of launch, Pennsylvania had 4,859 in the first six days and Hawaii had 520 in the first two weeks.

“This is very exciting news,” remarked Gale. “Considering the relative populations of Massachusetts and Pennsylvania, we likely had the best 24 hour response by comparison. Of course, the best news is that 870 users were able to successfully complete the process without glitches.”

In all, 59 counties received new applications for processing through NEReg2Vote. County election officials will review each one to ensure that all of the information is correct and that the applicant’s signature was included.

“We expected an initial surge in usage, but we’re hopeful that Nebraskans will continue to log on in the coming weeks and months,” Gale said. “All they need is access to a computer or mobile device and their driver’s license or state-issued identification. The application process takes just minutes to complete.”

The online voter registration application is available in English or Spanish. There is also a demonstration function on the website that allows users to walk through the process, in both languages as well.
